Skills

- Electrical systems
- AutoCAD proficiency
- Tech-Savvy
- Project management
- Robotics integration
- C++, Python, MATLAB
- Embedded systems
- Control loop tuning

Diligent Graduate Engineer with solid background in automation and control systems engineering. Proven track record of developing efficient control systems, contributing to project success, and enhancing operational efficiency. Demonstrated expertise in PLC programming and HMI design.

Experience

2023-02 -
2023-06

Assistant Engineer

Nortex Textile Mills Ltd, Bangladesh

- Operate and monitor a variety of capacity, temperature, humidity, and spindle spin sensors, for efficiency and safety.
- Machine learning algorithms coded in Python and C++.
- Researched upgrades to fire safety systems, using photoelectric detectors and automated carbon dioxide fire extinguishers.
- Collaborated with multidisciplinary teams to design and implement complex engineering projects.

Education

2025-06

Bachelor of Science: Mechatronics

University of Newcastle - Newcastle, NSW

- Degree Awarded with Honours

2017-06

Diploma: Mechanical Engineering

Newcastle International College - Newcastle, NSW

Volunteer work

- Assisted with special events and programs at University of Newcastle.
- Funds raising to build/renovate schools in rural Bangladesh for JAAGO Foundation.

- Rapid prototyping
- Computer-aided design
- Simulation and modelling
- Schematic capture

Projects

Robotics

Balancing Robot

University of Newcastle - MCHA3500

- C++ STM32 Microprocessor programming
- PCB Design and Soldering
- MATLAB Simulation
- Successful MPC Control on 12V DC Motors

2017-06

Automated EV Supervisory System

University of Newcastle - MCHA3500

- MATLAB Simulation
- Fault detection
- Multidisciplinary Integration

Final Year
Project

Lightweight Robot Vibration Control

University of Newcastle – ENGG4801

- PID and MPC control on vibrating light beam
- Thesis Report on control system comparison

Placement

Photoelectric Fire Detectors

Nortex Textile Mills Ltd – Assistant Engineer

- Project proposal introduction.
- Microprocessor and system integration
